

Corrigendum

Renaming of *Bellulia* Wang, Zhou & Zhou, 2016

MIN WANG*, ZHONGHE ZHOU and SHUANG ZHOU

Key Laboratory of Vertebrate Evolution and Human Origins of Chinese Academy of Sciences, Institute of Vertebrate Paleontology and Paleoanthropology, Chinese Academy of Sciences, 142 Xizhimenwai Street, Beijing 100044, China

Mr Nick Gardner (Potomac State College of West Virginia University) has informed us that the name *Bellulia* which we used to describe a new genus of basal ornithuromorph bird from the Early Cretaceous (Wang, Zhou & Zhou, 2016) is preoccupied by a species of moth. This was described by Fibiger (2008) as a genus of moths of the Erebidae family, and the type species is *Bellulia parabella*. We therefore propose to substitute the name *Bellulornis* nom. nov. for the new ornithuromorph bird, the type species of which is *Bellulornis rectusunguis* (Wang *et al.*, 2016).
